BRAWNDOUGH AGRICULTURAL

Brawndough Brand Guidelines

These guidelines govern every use of the Brawndough name, logo and slogan across labels, signage, agricultural equipment and the presidential podium.

Tone of voice: confident, enthusiastic and, wherever possible, in capital letters. Every message should leave the reader certain that the product is what plants crave.

Never pair the product with the word 'water'. Our research shows the comparison does not favour us.

Sample document - fictional content for demonstration.
