HILL VALLEY AUTO & TEMPORAL SERVICES

Quotation - 1.21 Gigawatt Supply

Item 1: Delivery of 1.21 gigawatts to a single vehicle-mounted receiver, for a window of approximately one second. Price on application.

Item 2: Standby supply via scheduled lightning strike at the courthouse clock tower, 22:04 on the agreed date. Weather not guaranteed.

Note: our engineers asked what the power is for. The client said we would not believe them, and we have chosen not to ask again.

Sample document - fictional content for demonstration.
